

“People Who Self-Injure”
Principal Investigator, *my name*

MINOR ASSENT FORM
date

I am willing to take part in the study called “People who Self-Injure.” I understand that *my name*, the researcher from the University of Colorado, is hoping to learn about the people who do this, why they do this, and how it affects them. I understand that I will participate in an interview with Dr. *my name* in her office or on the telephone and that she will tape record this to ensure accuracy of her recall. I will be asked about when I first heard about self-injury, what I thought of others who did it, how I came to do it myself, how it felt, and how I came to stop (if applicable). This study will take place either on the telephone or in Dr. *my name*'s office at the University of Colorado and should take anywhere from 45 minutes to two hours of my time. I know that I can stop the interview at any time. If I do not like a question, I do not have to answer it, and if I ask, my answers will not be used in the study. No one will know my answers, including my parents, my siblings, or anyone else I do not want to know. This will be a private conversation between *my name* and me.
