

**Global Public Health  
Fellowship Opportunity  
2018/19**

**Are you interested in improving global public health?  
Are willing to live in Zambia for a year?  
Do you have a Master's degree?**

Established in 2001, CIDRZ is the largest independent non-governmental healthcare and research organisation in Zambia. We conduct locally-relevant, leading-edge healthcare research, strengthen primary health care systems in multiple focus areas, and run a state-of-the-art medical and research diagnostic laboratory. Through close collaboration with the Government of the Republic of Zambia Ministry of Health and other Ministries, and key local and international stakeholders we fulfil our mission to:

***Improve access to quality healthcare in Zambia through capacity development, exceptional implementation science and research, and impactful and sustainable public health programmes***

**HIV/AIDS    PMTCT    Enteric Diseases    Tuberculosis    Hepatitis    Child Health**  
**Vaccine Research    Lab Science    Detailed Analysis**  
**Social Qualitative Research    Primary Care & Health Systems Strengthening**

**HealthCorps Fellowship Length:** 10 – 12 months; starting early August 2018  
**Available Financial Support:** Modest monthly bursary to cover basic living expenses, local medical services membership, & emergency evacuation insurance
