

Friday 19th August 2011 9.00 – 16.00

KEMRI Conference Room

Clinical Trials in Kenya: A One Day Skills-Sharing Workshop

A free one day workshop in Nairobi open for all investigators and staff working on Clinical Trials in Kenya and East Africa.

The aim of this workshop is to bring together research staff working on different types of trials across all diseases and locations in order to share knowledge, experience, tools and build a professional network between clinical trialists in Kenya. We welcome investigators, clinicians, clinical officers, research nurses, laboratory staff, pharmacists, data managers, monitors and coordinators from the public or private sector.

Sessions will include:

- Setting up a Clinical Trial
- Clinical Trial Regulations and Guidelines
- Clinical Trial Laboratories
- Data Management for Clinical Trials
- Informed Consent and Community Engagement
- Career Development for Research Staff
- Professional Networking and Developing Trial Capacity in Kenya

**Lunch and refreshments will be provided. The meeting is free to attend-
prior registration is essential. Please contact:**

info@globalhealthtrials.org

Upon registration a final programme will be sent to you

We regret that travel expenses cannot be met by the organisers.
