

## **APPENDIX B: POSTER ADVERTISING THE RESEARCH & SEEKING PARTICIPANTS**

### **YOU CAN MAKE A DIFFERENCE!**

We are people who are trying to find ways to include people living with or at-risk for HIV/AIDS in decisions that AIDS Organizations make. If you take part in this study, it will help us to better the way that people living with or at-risk for HIV/AIDS are part of making such choices.

Because Aboriginal people, immigrants to Canada, women, and/or people using drugs often find it hard to be involved with AIDS Organizations, we are looking for these types of people to be part of this study.

If you take part in the study, it will mean a day of learning about taking photos with a camera that we provide you. The photos will be about that it means to be included in decisions that AIDS Organizations make and the things that make it easy or hard for you to be included in such decisions. It will also mean that you will meet with 6-9 other people three times to talk about what your photos mean and to decide what photos from the group you want to share with the public. You will be given \$20 at each meeting (4 meetings in all) to cover any costs they you have, such as child care, in taking part in the study.

If you would like to know more about this study, please contact us by telephone using this toll free (free of charge) number: 1-800-XXX-XXXX
