REDe/TGHN Promotion

During the development of this Meeting, the REDe/TGHN platform was actively promoted in several modalities, including the following.

Additional information is available at

www.acacpmt.org

1) Information Stand, August 22-25, 2017.

An information stand was installed during the days of the Meeting in the Gallery exhibition area of the Clarion Hotel. The participants were informed about the platform resources

and tools. The participants had also the opportunity to register.

- 2) **Forum on Ethics of Research in Pregnancy, August 22-23, 2017.** During this Forum, the program included a conference on REDe/TGHN Platform resources and tools. The participants received promotional materials.

- 3) **Central American and Caribbean Parasitology and Tropical Medicine Meeting Scientific Session, August 26, 2017.** Pediatrician Fátima Rico, Hospital Escuela Universitario and Pediatrics Department Universidad Nacional Autónoma de Honduras (UNAH), presented an abstract of a work type experience, entitled: *Response to zika epidemic: Training on neonatal growth monitoring through the Research Capacity Network (REDe) / The Global Health Network, Faculty of Medical Sciences UNAH, Tegucigalpa , Honduras, 2016-2017.* The Abstract Book is available at <http://www.bvs.hn/RMH/pdf/2017/html/Vol85-S2-2017.htm>
