

The Global Health Network invites you to

Engagement at a distance: Sharing lessons from experience

This interactive [Mesh](#) learning webinar will explore the possibilities for community engagement with health research when we cannot meet in person. We will hear from engagement practitioners who have run successful projects that did not rely on meeting face-to-face. You will also learn top-tips on designing and facilitating virtual events and try out some interactive tools that can be used to enhance engagement online

10 September 2020 10am-12:30pm (GMT+1)

Facilitator:
Robin Vincent

Shane McCracken
I'm a Scientist, Get me out
of here! Kenya & Vietnam
