

The Global Health Network and Liverpool Brain Infections Group invite you to a seminar:

# Neurological disorders associated with COVID-19: Learnings from the current literature and 'mutant' responses to COVID-19

The COVID-19 pandemic, caused by SARS-CoV-2, is of a scale not seen since the 1918 influenza pandemic. Although the predominant clinical presentation is with respiratory disease, neurological manifestations are being recognised increasingly. In this episode, we will discuss what we can learn from the literature on neurological manifestations of COVID-19 and 'mutant' responses to COVID-19.

## Chair: Professor Tom Solomon

Chair of Neurological Science, University of Liverpool, Director of the National Institute for Health Research (NIHR) Health Protection Research Unit in Emerging and Zoonotic Infections

## Professor Elizabeta Mukaetova-Ladinska, University of Leicester, UK

University of Leicester, UK  
'Mutant' responses to Covid-19

## Professor Kameshwar Prasad

All India Institute of Medical Sciences, India  
Neurological manifestations of Covid: what can we learn from the literature?

10 Sept 2020 🕒 13:00 PM (GMT+1)
