

REDe

Research Capacity Network

REDe, SSI and ZikaPLAN invite you to a 5 - day workshop on:

Scientific Manuscript Writing Workshop

The scientific community evaluates advancement and status primarily by the number and quality of research publications a scientist has published in peer-reviewed journals. Our Scientific Manuscript Writing Workshops are designed to provide scientists with the skills and tools they need to transform existing data into publishable material and increase the likelihood of a manuscript being accepted for publication in a reputable scientific journal. At the end of each workshop, full participants will have in their hands a solid first draft of their manuscript.

15 – 19 March 2021

Sessions begin at 09:00 every day (GMT -3)

Requirement for full participants

Proficiency to speak and write in English

The entire workshop will be conducted in English

Bring your own data

Our aim is that you will have a ready-to-submit manuscript by the end of the workshop.

Full commitment

To benefit fully from this experience, participants will be expected to dedicate time to all aspects of the workshop
