# Implementation of novel laboratory diagnostics for emerging infectious diseases

Live workshop

**19&20 MAY 2021**

**13:00-17:00 BST**

Learn More at:

[pandora.tghn.org](http://pandora.tghn.org)

Learning objectives

- A summarised portfolio of the available laboratory methods for infectious diseases
- A better understanding of verification, evaluation and validation procedures
- An overview of the necessary infrastructure, equipment, personnel and material to implement a diagnostics laboratory
- Showcase of how to overcome the challenges in implementing diagnostics methods.
