

Cycle of Nursing Research Workshops

Location: Universidade Estadual do Norte do Paraná (UENP) - Campus Luiz Meneghel

Language: Portuguese

Target Audience: Nurses and Midwives

Event capacity: 30

The UENP is located in the municipality of Bandeirantes, in the north of Paraná, Brazil. The nursing course receives students from all over Brazil, especially from the southeastern region.

The cycle of nursing research workshops is an important initiative that pretend to stimulate participation in future scientific initiatives, as well as to promote the development of a critical and investigative sense in research; leadership to nurses in public health research projects; contribute to the community and generate technical-scientific knowledge in health.
