

ARTIFICIAL INTELLIGENCE AND HEALTH: FROM RESEARCH TO ACTION

**4 to 6**
JUNE 2025

**NH Centro Histórico Bolívar**
Giacomo Leopardi Hall - Bolivar 160, Buenos Aires City

Goals

- Strengthen the capacity of CLIAS research teams to develop, implement, and scale responsible artificial intelligence solutions, focusing on the impact on public health and equity in Latin America and the Caribbean.
- Promote exchange and coordination between projects, strategic partners, and international experts, generating interdisciplinary collaboration networks that enhance the advancement of the regional agenda in AI and health.
- Promote the transition from research to action through practical tools, case studies, and workshops focused on business models, communicating results, and generating impact in real-life contexts.

DAY 1 | June 4

SCHEDULE	PANELISTS ACTIVITY	MODERATORS
1 pm - 2 pm	Welcome lunch and registration of participants
