

Healthy Life Trajectories Initiative (HeLTI) Trainee and Early Career Researcher (ECR) Seminar Series presents:

Presenter:

Professor Robert D Levitan

Senior Scientist at CAMH; Professor in the Department of Psychiatry Physiology, and a full member of the IMS at the University of Toronto.

Topic: A Novel, Targeted Approach to Study Season of Birth Effects on Neurodevelopment and Psychopathology

Brief Description: This seminar will review and critique an extensive body of work that started almost 100 years ago linking season-of-birth to various psychiatric and neurological conditions. A new model to improve the translational value of this work at an individual pregnancy level will then be presented, focusing on maternal trait seasonality as the key moderating variable.

When: Wed, October 22nd at 8:00 EDT (13:00 BST; 14:00 SAST; 17:30 IST; 20:00 CST)

ZOOM: [Meeting Link](#)

Meeting ID: 841 4806 6392

Passcode: 339841

ALL are welcome to attend – please disseminate widely.

If interested in presenting during this series, please contact the HeLTI Office: helti@helti.org
