

Table 1: List of Trials that have been conducted at K-IRDO CRS plus those that were done elsewhere by current K-IRDO staff

SR #	Study Title	Study Phase (I-IV)	Sponsor	Named PI	Link to study e.g. from clinicaltrials.gov
1.	Solidarity Trial Vaccines: An international randomised trial of candidate vaccines against COVID-19 (STV Study). Study Period: Feb 2022 - Ongoing	Phase III	WHO through KAVI	Kawango Agot	https://doi.org/10.1186/ISRCTN15779782
2.	Adaptive Platform Treatment Trial for Outpatients with COVID-19 (Adapt Out COVID Study). Study Period: 2020- 2022	Phase II/III	National Institute of Allergy and Infectious Diseases through Pharmaceutical Product Development	Kawango Agot	https://adis.springer.com/trials/700326876
3.	Phase 3 multi-centre, double randomized, placebo-controlled effectiveness and safety study to assess the role of Truvada in preventing HIV acquisition in women (FEM-PrEP Study). Study Period: 2007-July 2012	Phase III	USAID and BMGF	Lut Van Damme, Amy Corneli	https://clinicaltrials.gov/ct2/show/NCT00625404
4.	ACTG 5263: A Randomized Comparison of Three Regimens of Chemotherapy with Compatible Antiretroviral Therapy for Treatment of Advanced AIDS-KS in Resource-Limited Settings. Study Period: 2017-2020	Phase III	AIDS Clinical Trials Group (ACTG)	Margaret Borok-Williams	https://clinicaltrials.gov/show/NCT01435018
5.	HPTN081: A phase 2b study to evaluate the safety and efficacy of VRC01 broadly neutralizing monoclonal antibody in reducing acquisition of HIV-1 infection in women in sub-Saharan Africa Study Period: - 2015-2023	Phase II	National Institute of Allergy and Infectious Diseases (NIAID)	Lawrence Corey, Myron Cohen	https://clinicaltrials.gov/show/NCT02568215
6.	ACTG 5288: Management Using the Latest Technologies in Resource-Limited Settings to Optimize Combination Therapy After Viral Failure) (MULTI-OCTAVE). A third-line HIV treatment regimen for resource-limited settings. Study Period: 2014-2020	Phase IV	AIDS Clinical Trials Group (ACTG)	Beatriz Grinsztejn	https://clinicaltrials.gov/show/NCT01641367

7.	Phase IIa, 90-Day Safety, Adherence, and Acceptability Study of Intravaginal Rings Releasing Tenofovir with and without Levonorgestrel among Women in Western Kenya. (CONRAD Ring study). Study Period: 2018-2020	Phase II	CONRAD	Nelly R. Mugo	https://clinicaltrials.gov/show/NCT03762382
8.	MTN-034/IPM 045, A Phase 2a Crossover Trial Evaluating the Safety of and Adherence to a Vaginal Matrix Ring Containing Dapivirine and Oral Emtricitabine/Tenofovir Disoproxil Fumarate in an Adolescent and Young Adult Female Population. Study Period: July 2018-Feb 2023	Phase II	National Institute of Allergy and Infectious Diseases (NIAID)	Gonasagrie Nair	https://clinicaltrials.gov/show/NCT03593655
9.	Safety and Immunogenicity Study of Full Schedule (3-Dose SHAN6™) or SHAN6™- SHAN 5®- SHAN6™ Versus the Licensed Vaccine SHAN 5® With bOPV and IPV When Administered Per National Immunization Schedule in Healthy Kenyan Infants. Study Period: July 2020-Feb 2022	Phase III	Sanofi Pasteur	Study Director	https://clinicaltrials.gov/show/NCT04429295
10.	TBTC Study 31: ACTG 5349, Rifapentine-containing treatment shortening regimens for pulmonary tuberculosis: A randomized, open-label, controlled phase 3 clinical trial Study Period: 2015-2021	Phase III	Centers for Disease Control and Prevention (CDC)	Susan Dorman, Ekaterina V Kurbatova	https://clinicaltrials.gov/show/NCT02410772
11.	HPTN052: A Phase III, Two-arm, Randomized, Controlled, Multi-center Trial to Determine whether Antiretroviral Therapy (ART) can Prevent the Sexual Transmission of HIV-1 in HIV-1 Serodiscordant Couples: Study Period: 2009-2015	Phase III	National Institute of Allergy and Infectious Diseases (NIAID)	Myron S. Cohen	https://clinicaltrials.gov/show/NCT00074581
12.	A 5316: Evaluating Pharmacokinetic Interactions with Vaginal Ring Contraceptives and Antiretroviral Therapy (ART) (Nuvaring Vaginal ring) Study Period: 2015 to 2017	Phase III	AIDS Clinical Trials Group (ACTG)		https://clinicaltrials.gov/show/NCT01903031
13.	A phase II/III randomized double-blind placebo-controlled study of tiragolumab in combination with atezolizumab plus pemetrexed and carboplatin/cisplatin versus	Phase II/III	Hoffmann-La Roche	Study Director	https://clinicaltrials.gov/show/NCT04619797

	pembrolizumab plus pemetrexed and carboplatin/cisplatin in patients with previously untreated advanced non-squamous non-small-cell lung cancer Study Period: 2020 to 2027				
14.	Levonorgestrel intrauterine system effects on hemoglobin and serum ferritin among anemic women in Kenya: An open label randomized trial to compare with an oral contraceptive regimen that provides supplemental ferrous fumarate tablets Study Period: 2022 to 2026	Phase IV	FHI 360	David Hubacher	https://clinicaltrials.gov/show/NCT05233956

The table above lists clinical trials that have been conducted at K-IRDO CRS site, the first 3, plus those that were done by current K-IRDO CRS Staff before they joined K-IRDO, from the 4th downwards. This shows that the staff are well experienced to conduct similar studies and more at K-IRDO site.

The first trial on the above table, Solidarity Trial Vaccines (STV) is a multisite study sponsored by WHO through KAVI. It is a double dose study where participants received the 1st dose at enrolment and the 2nd dose at day 28 post enrolment. Our site enrolled 500 Participants into the study, all of them received the 1st dose and so far 499 (99%) have received their 2nd dose. The participant who has not received her 2nd dose had relocated out of study area to Nairobi and has not managed to come for the visit, however, we have been able to reach her and conducted phone call follow up visits. Our retention rate is currently at 100%. The main aim of the study is to evaluate safety and efficacy of candidate vaccines for COVID-19.

TABLE 2: LIST of K-IRDO CRS STAFF AND THEIR ROLES

Staff Name	Position	Studies Participated in and their roles
Dr. Kawango Agot	IRDO Director & CRS PI	<ul style="list-style-type: none"> Solidarity Trial Vaccines: An international randomised trial of candidate vaccines against COVID-19 (STV Study). – K-IRDO CRS Site PI Adaptive Platform Treatment Trial for Outpatients with COVID-19 (Adapt Out COVID Study). - K-IRDO CRS Site PI Phase 3 multi-centre, double randomized, placebo-controlled effectiveness and safety study to assess the role of Truvada in preventing HIV acquisition in women (FEM-PrEP Study). - K-IRDO CRS Site PI

		<ul style="list-style-type: none"> • Reaching the last 20%: A Targeted HIV Self-Test Secondary Distribution Intervention to Engage High-Risk Men in Kenya (Pamoja Study). 1/5/2022 – 30/4/2027 - K-IRDO CRS Site PI • Tu'Washindi: A relationship-focused intervention to reduce GBV and increase PrEP uptake and adherence among Kenyan AGYW (Tu'Washindi 2 Study). 1/8/2021-31/7/2026 – Site PI • Akiba: A savings intervention to reduce men's engagement in HIV risk behaviors (Akiba 2 Study). 1/4/2021 – 30/3/2026 - Site PI • Self-Test Strategies and Linkage Incentives to Improve ART and PrEP Uptake in Men (Owete Study). 1/9/2019 – 30/6/2024 - Site PI • Data-informed Stepped Care to Improve Adolescent HIV Outcomes (DiSC Study). 1/9/2018 – 31/8/2023 - Site PI • Adolescent Research Participation from the Perspectives of Multiple Stakeholders. 1/9/2018 – 31/8/2023 -Site PI • Starve and Kill: Engineered Antigens Targeting Nutrient Acquisition Pathways Essential for Gonococcal Infection and Disease (Chanjo Study). 1/3/2021 – 28/2/2023 - Site PI • A Combination Strategy for HIV Prevention among Female Sex Workers, Nyanza, Kenya (IPrEP Main Study). 22/10/2016 – 31/3/2023 – Study Co-PI • IPrEP Men's Study: Expanding the reach of prevention for men in Kisumu, Kenya (IPrEP Men's Study). 01/4/2020 – 31/3/2023 - Study Co-PI • Facilitating pathways to economic independence could reduce HIV risk among female sex workers in Kisumu and Siaya Counties, Kenya – Acceptability and feasibility of Jitegemee intervention (Jitegemee Study). 1/1/2022 – 31/12/2022 – Study PI • Understanding the relationship between adolescent socioeconomic status and sexual risk behaviors in Kisumu, Kenya (Adolescent Sexual Health and Economic Stud (ASHES Study). 1/3/2022 – 30/9/2022 -Site PI • Understanding and measuring the impact of stigma on PrEP adherence among AGYW in Kenya: identifying targets for future interventions (AOB Study). 1/8/2020 – 31/12/2022- Site PI • High-yield HIV testing, facilitated linkage to care, and prevention for female youth in Kenya (Girls Study). /1/2016 – 31/7/2022 - Study Co-PI
--	--	---

		<ul style="list-style-type: none"> • Secondary distribution of HIV self-tests by female sex workers: an innovative strategy for promoting male partner testing and reducing HIV risk (Jikingo Study) 09/15/2016-06/30/2022 -- Site PI • Photovoice for Elicitation of Multi-Level Factors that Influence PrEP Adherence and Persistence Among Young Women in Kenya (Photovoice Study). 1/4/2018 – 31/3/2020- Site PI • Targeted interventions to address the multi-level effects of gender-based violence on PrEP uptake and adherence among adolescent girls and young women in Siaya County, Kenya (Tu'Washindi na PrEP Study). 1 /8/2017 – 31/5/2020- Site PI • Prize-linked savings initiatives for promoting better health and economic outcomes in Kenya (Akiba 1 Study). 2018-2019 - Site PI • Safety and Acceptability Study of PrePex Circumcision Device among Men when Foreskin is Removed Shortly after Device Placement. Sept 2017 - Feb 2018 - Study PI • Acceptability, feasibility and impact of oral HIV self-testing for partner testing among Kenyan adolescent girls aged 15-19 years: A randomized controlled trial (Wasichana Wetu Study) May 2016 - Sep 2017 - Site PI • Safety, Efficacy and Acceptability Study of Non-Surgical Male Circumcision Device for Adolescent Male Population Including Contraindicated Subjects by Physicians and Nurses. Apr 2017 - Aug 2017 - Study PI • Exploring the Syndemic of Substance Use, Violence, and HIV/STI Risk among Female Sex Workers in Kisumu, Kenya (NHS II Study). Aug 2016 - Sept 2017 - Site PI • Oral Self Testing and optimum Peer Educator to Female Sex Worker ratio for increased uptake of HIV testing and follow up among female sex workers in Kenya (KPIS Study). May 2014 - May 2018 - Study Co-PI • The Impact of Involving Intimate Female Partners in Increasing Demand for Voluntary Medical Male Circumcision in Nyanza, Kenya: A Randomized-Controlled Trial (IPS Study). 2014 – 2017 - Study PI • Acceptability study of three multipurpose prevention technology (MPT) placebo delivery forms for simultaneously preventing HIV and unintended pregnancy among young women in Kenya and South Africa (TRIO Study). Jan 2015 - Aug 2017 - Site PI • The use of HIV self-tests to promote partner and couples testing: A Randomized Trial (Jipime Study). 2014-2016 - Study Co-PI
--	--	---

		<ul style="list-style-type: none"> • Gender-Specific Combination HIV Prevention for Youth in High-Burden Settings (MP3 Study). 2011-2016 - Study Co-PI • Male Circumcision for HIV Prevention in Kenya: Seeking effective strategies to recruit older men (TASCO Study). September 2015 - Study PI • Male Circumcision Gender Norms and HIV/AIDS: Assessing Acceptability of Medical and Infant/Childhood Male Circumcision among Circumcising Communities in Kenya (MC Gender Study). 2013-2014 - Study PI • Compensation for transport costs and lost wages associated with VMMC uptake: an intervention to increase VMMC demand among older men in Nyanza Province (CTT Study). 2013-February 2014 - Site PI • Optimizing the use of Economic Incentives to Increase Male Circumcision Demand: A Randomized Trail to Compare Fixed and Lottery-based Incentives in Kenya (Lottery Study). 2013-December 2014 - Site PI
Dr Mark Ayallo	CRS Co-PI and MO	<ul style="list-style-type: none"> • Solidarity Trial Vaccines: An international randomised trial of candidate vaccines against COVID-19 (STV Study). – Co=PI and MO • Adaptive Platform Treatment Trial for Outpatients with COVID-19 (Adapt Out COVID Study). - Co=PI and MO
Dr George A Mugendi	CRS Co-PI and PoR	<ul style="list-style-type: none"> • Solidarity Trial Vaccines: An international randomised trial of candidate vaccines against COVID-19 (STV Study). – Co-PI and PoR • Adaptive Platform Treatment Trial for Outpatients with COVID-19 (Adapt Out COVID Study). - Co-PI and PoR • A phase II/III randomized double-blind placebo-controlled study of tiragolumab in combination with atezolizumab plus pemetrexed and carboplatin/cisplatin versus pembrolizumab plus pemetrexed and carboplatin/cisplatin in patients with previously untreated advanced non-squamous non-small-cell lung cancer. 2020 to 2027 – Co-Investigator and PoR • Levonorgestrel intrauterine system effects on hemoglobin and serum ferritin among anemic women in Kenya: An open label randomized trial to compare with an oral contraceptive regimen that provides supplemental ferrous fumarate tablets. 2022 to 2026 -PoR

Dr Kelvin Wandera	Associate Pharmacist	<ul style="list-style-type: none"> • Solidarity Trial Vaccines: An international randomised trial of candidate vaccines against COVID-19 (STV Study). – Pharmacist • Adaptive Platform Treatment Trial for Outpatients with COVID-19 (Adapt Out COVID Study). - Pharmacist • MTN-034: A Phase 2a Crossover Trial Evaluating the Safety of and Adherence to a Vaginal Matrix Ring Containing Dapivirine and Oral Emtricitabine/Tenofovir Disoproxil Fumarate in an Adolescent and Young Adult Female Population. 2018-2023 – Pharmacist • HVTN703/HPTN 081: A phase 2b study to evaluate the safety and efficacy of VRC01 broadly neutralizing monoclonal antibody in reducing acquisition of HIV-1 infection in women in sub-Saharan Africa. 2015-2023 - Pharmacist • Sanofi: Safety and Immunogenicity Study of Full Schedule (3-Dose SHAN6™) or SHAN6™-SHAN 5®- SHAN6™ Versus the Licensed Vaccine SHAN 5® With bOPV and IPV When Administered Per National Immunization Schedule in Healthy Kenyan Infants. Phase III. 2020-2022 - Pharmacist • ACTG 5349: Rifapentine-containing treatment shortening regimens for pulmonary tuberculosis: A randomized, open-label, controlled phase 3 clinical trial. 2015-2021- Pharmacist • ACTG 5263: A Randomized Comparison of Three Regimens of Chemotherapy with Compatible Antiretroviral Therapy for Treatment of Advanced AIDS-KS in Resource-Limited Settings. 2017-2020. Phase III trial - Pharmacist • Phase IIa, 90-Day Safety, Adherence, and Acceptability Study of Intravaginal Rings Releasing Tenofovir with and without Levonorgestrel among Women in Western Kenya. (CONRAD Ring study). 2018-2020 - Pharmacist • ACTG 5288: Management Using the Latest Technologies in Resource-Limited Settings to Optimize Combination Therapy After Viral Failure) (MULTI-OCTAVE). A third-line HIV treatment regimen for resource-limited settings. 2014-2020. - Pharmacist
Dr Scholastica Wanjiru	Associate Pharmacist	<ul style="list-style-type: none"> • Solidarity Trial Vaccines: An international randomised trial of candidate vaccines against COVID-19 (STV Study). – Pharmacist • Adaptive Platform Treatment Trial for Outpatients with COVID-19 (Adapt Out COVID Study). - Pharmacist
Dr David Oriko	Study Medical Office/Coordinator	<ul style="list-style-type: none"> • Solidarity Trial Vaccines: An international randomised trial of candidate vaccines against COVID-19 (STV Study). – Coordinator and MD

Dr Julie Kadima	Study Doctor	<ul style="list-style-type: none"> • Solidarity Trial Vaccines: An international randomised trial of candidate vaccines against COVID-19 (STV Study). – MD • Data-informed Stepped Care to Improve Adolescent HIV Outcomes (DiSC Study). 1/9/2018 – 31/8/2023 – MD
John Okanda	Study Coordinator	<ul style="list-style-type: none"> • Solidarity Trial Vaccines: An international randomised trial of candidate vaccines against COVID-19 (STV Study). – Coordinator • Adaptive Platform Treatment Trial for Outpatients with COVID-19 (Adapt Out COVID Study). – Coordinator • ACTG 5263: A Randomized Comparison of Three Regimens of Chemotherapy with Compatible Antiretroviral Therapy for Treatment of Advanced AIDS-KS in Resource-Limited Settings. 2017-2020. - Coordinator • Phase IIa, 90-Day Safety, Adherence, and Acceptability Study of Intravaginal Rings Releasing Tenofovir with and without Levonorgestrel among Women in Western Kenya. (CONRAD Ring study). 2018-2020 – QC Officer • ACTG 5288: Management Using the Latest Technologies in Resource-Limited Settings to Optimize Combination Therapy After Viral Failure) (MULTI-OCTAVE). A third-line HIV treatment regimen for resource-limited settings. 2014-2020. - Coordinator • HPTN052: A Phase III, Two-arm, Randomized, Controlled, Multi-center Trial to Determine whether Antiretroviral Therapy (ART) can Prevent the Sexual Transmission of HIV-1 in HIV-1 Serodiscordant Couples: 2009-2015 – Deputy Coordinator and QC Officer
Lindah Awuor	Study Nurse	<ul style="list-style-type: none"> • Solidarity Trial Vaccines: An international randomised trial of candidate vaccines against COVID-19 (STV Study). – Nurse • Adaptive Platform Treatment Trial for Outpatients with COVID-19 (Adapt Out COVID Study). – Nurse • A Combination Strategy for HIV Prevention among Female Sex Workers, Nyanza, Kenya (IPrEP Main Study). 22/10/2016 – 31/3/2023 – Nurse • IPrEP Men’s Study: Expanding the reach of prevention for men in Kisumu, Kenya (IPrEP Men’s Study). 01/4/2020 – 31/3/2023 - Nurse
