

Clinical Trials in Central Africa: A One Day Skills-Sharing Workshop

Wednesday 28th November 2012

Conference Room of the Biotechnology Centre, University of Yaoundé

A free one day workshop open for to everyone involved in Clinical Trials in Cameroon and surrounding areas.

This workshop is a partnership between Global Health Trials and the Biotechnology Centre, University of Yaoundé 1 and will hold back to back with the 2012 Cameroon Biosciences Conference. The aim is to bring together all those involved in different types of trials across all diseases and locations in order to share knowledge, experience, tools and build a professional network between clinical trial investigators and staff in Central Africa. We welcome investigators, clinicians, clinical officers, research nurses, laboratory staff, pharmacists, data managers, monitors, coordinators, research reviewers and sponsors from the public or private sector.

Talks will include:

- An Overview of Health Operational Research in Cameroon and Central Africa
- Regulation/Ethics of Health Operational Research in Cameroon.
- Clinical Trials in Central Africa. Needs and challenges
- GCP Guidelines and Quality Assurance
- The Global Health Trials Clinical Program and Central African Regional Faculty
- Data Management, the Critical Element in Global Health Research.
- Setting Up Trials Laboratory/Site. Experience from *Profs Mbacham, Penlap Veronique (CANTAM Tb Lab), Dr Jude Bigoga, Akindeh NJI, Innocent Ali.*

Lunch and refreshments will be provided. The meeting is free to attend - prior registration is essential. Please contact: info@globalhealthtrials.org

We regret that travel expenses and accommodation cannot be met by the organisers.
