Global Health Trials (GHT) is going to organise a One day workshop in Hyderabad on 19th Nov' 2014. The theme of the meeting is 'Recent trends and career developments in Clinical Research-INDIA.'

Global Health Trials (headquartered in UK) being an NGO is trying to bring together the local research community to encourage the sharing of ideas, knowledge and resources, and professionalism research as a career.

Global Health Trials (GHT) One-Day Skills Sharing Workshop conducted worldwide is trying to spearhead these ethos of Global Health Trials.

At a regional level in India Samskara (NGO), Clini India Institute for Clinical Research and ICBM School of Business Excellence are coordinating with GHT for successful conducting of this event at Hyderabad

The programme committee members are Mrs. Nicola McHugh (Project Coordinator), Global Research Nurse Network, Mr. Joby George (Research Nurse and Member), Global Research Nurses Network, Oxford University, Dr. Sreedhar. Tirunagari (Organizing Secretary Director), Holistic Healthcare and Research Centre, Hyderabad, Mrs Jyothsna Tirunagari (President) Samskar, Mr. Anuj Tripathi (CEO) Clini India.

Summary: Global Health Trials (GHT) along with others will be hosting the one -day workshop on 19th Nov'14 in Hyderabad. It will provide an opportunity to build awareness for participants regarding the growing importance of Clinical Research, current industry scenario in view of regulatory changes and career prospects in INDIA. The workshop will include focused discussions related to trends concerning impact of regulatory changes, research as tool for quality care and the exploration of potential solutions and furthermore will also provide a career direction for becoming a CR professionals.

Participants will have a greater understanding of the importance of role they would like to play in ever expanding Clinical research opportunities in India. The workshop will be suitable for Principal Investigators, Clinical Research Coordinators, Medico's Pharmacy & Nursing graduate students, Research personals from hospitals/pharmaceuticals, statisticians, ethicists, regulators etc.

National and International Speakers of repute and key opinion leaders in Clinical Research who will take part of this conference are Dr. Sreedhar. Tirunagari, Mrs. Nicola McHugh, Dr. Sreedevi Rayasam, Mr. Joby George, Mr. Soumya Prakash Rout, Dr. A. Ramesh, Mr. Anuj Tripathi, Mr. Prabhat Kumar, Dr. Prabha Kotni, Dr. Srinivas Kondari, Mr. Varada Chaitanya.

The Global Health Network was set up in 2010 and is run on a core operational funding grant from Bill and Melinda Gates Foundation and Oxford Tropical Network operating at the Nuffield Department of Medicine Research Building, Centre for Tropical Medicine University of Oxford, London

The Global Health Network aims to accelerate and streamline research through this innovative digital platform. The idea is to provide a mechanism for facilitating collaboration and resource sharing for global health. The Global Health Network is an online science park that allows researchers to work together without geographical, institutional or financial barriers.

The Global Health Network aims to enable research by sharing tools, resources, knowledge and best practice. In fact the Global Health Trials area of The Global Health Network is discussed on page 107 of this WHO report and recognized for the contribution that Global Health Trials is bringing to research capacity development by facilitating the sharing of templates, tools, protocols and allowing research staff to provide support and guidance to each other.

SAMSKARA, a Non Profitable Organization in India based at Hyderabad, is an Advocacy group for Healthcare professionals and Patients. Samskara aims at providing a rich platform for Doctors and Health Care Professionals in transforming their ideas to innovation, developing integrated innovation business models, which help patients get faster, effective and economical treatments.
